

	Theatre 1	Theatre 2	Room 1	Computer Lab
	Welcome			
9 - 10	Simon P Perl 6 whistle stop tour	Dave Cross - Web site Tune-up	Jeff Goff Art of programming	Andrew Solomon - Introduction to Perl
10 - 11	Steven G All langs are equal		Lacey Powers Debian tips	
	Colin Newell A bit of Crypto ...	Ed J (Mohawk) GraphQL	MANWAR Tube::Map	
	Coffee Break			
11 - 12	Matt Trout	Abigail	Max Maischein	Lance Wicks - Getting started with Bailador
12 - 13	Bothead as a Service	Regex mini tutorial	WWW::Mechanize::Chrome	
	JJ Allen: Docker & Perl	Mark Sta Ana Intro to Rust	Mike Whitaker Dancer2 sessions	
13 - 14	Lunch Break			
14 - 15	Sue Spence	Paul Evans Devel::MAT update	Tina Müller YAML	Martin Berends - Perl and Selenium Workshop
	Spiders, Gophers, & Butterflies	Julien F Turning humans	Leon T Dist::Zilla tips	
15 - 16	Tom Hukins Development > coding	JJ Merelo	Salvador F Packing on Windows	
	Paul Johnson Legacy Perl	Perl 6 as first language	Malcolm S Julia & Perl	
16 - 17	Coffee Break			
17 - 18	Plenary: 16:30 - 17:20 Ann Barcomb Fifteen years of contributing casually			
	Lightning Talks			
	Closing Words			

Talks

Abigail	LT2	A mini tutorial on character classes in regular expressions
Ann Barcomb	LT1	Research into casual contributions to open source software
Colin Newell	LT1	Why we should all know more about random numbers & crypto
Ed J (Mohawk)	LT2	Introducing GraphQL and support for Perl now & in the future
Jeff Goff (DrForr)	R1	Transferring your programming skills from Perl to paper
JJ Allen	LT1	How to use Perl in Docker, and JJ's tips to make your life easier
JJ Merelo	LT2	Using Perl 6 to teach programming concepts to novices
Julien Fiegehenn	LT2	Teaching Perl to people with little or no programming expertise
Lacey Powers	R1	Tips for those using and administering Debian
Leon Timmermans	R1	Why you're probably using Dist::Zilla wrongly
Malcolm Sherrington	R1	How Perl and Julia complement each other
Mark Sta Ana	LT2	An introduction to the Rust programming language
Matt Trout	LT1	A framework to make it easier to write IRC bots, for ops & more
Max Maischein	R1	Automatically driving websites using WWW::Mechanize::Chrome
Mike Whitaker	R1	A session handler for Dancer2, using AWS DynamoDB
Mohammad Anwar	R1	Using Tube::Map and friends to map out underground systems
Paul Evans	LT2	Recent changes in the Devel::MAT memory usage analysis tool
Paul Johnson	LT1	Maintaining a large legacy Perl 5 codebase
Salvador Fandiño	R1	Packing Perl apps for Windows using Win32::Packer
Simon Proctor	LT1	A whistle-stop tour of Perl 6
Steven Goodwin	LT1	Implementing the same thing in 16 languages, & lessons learned
Sue Spence	LT1	Comparing Perl 6 and Go for writing a web crawler
Tom Bloor	R1	Tom's Testing frameworks, and the problems they solve
Tom Hukins	LT1	What developers (should) do besides writing code
Tina Müller	R1	YAML::PP - creating the best Perl 5 module for working with YAML

Tutorials

Andrew Solomon	CL	An introduction to Perl 5
Dave Cross	CL	Making your web-sites more Google-friendly
Lance Wicks	CL	Using the Bailador framework to write web apps in Perl 6
Martin Berends	CL	Testing web sites/apps with Perl and Selenium

Lightning Talks

Tom Hukins	LT1	Safely deleting code from a large codebase
Tina Müller	LT1	YAML::PP - creating the best Perl 5 module for working with YAML
Dave Cross	LT1	Adventures beyond the Perl echo chamber
Mark Keating	LT1	The Enlightened Perl Organisation (EPO) needs YOU!
Kenichi Ishigaki	LT1	Better detection of what modules are used by some Perl 5 code
Paul Johnson	LT1	Perl 5 optimisation techniques
Chris Jack	LT1	Musings on Perl jobs
Paul Evans	LT1	Mistakes not to make in talk slides
